About the ACI Concrete Convention

The ACI Concrete Convention is the world's gathering place for advancing concrete materials, design, construction, and repair, bringing together the world's most well-known leaders with professionals looking to learn. ACI Conventions provide a forum for networking and education and an opportunity to provide input on the concrete industry's codes, specifications, and guides.

Committees meet to develop the standards, reports, and other documents necessary to keep up with the ever-changing world of concrete technology. Committee meetings are open to all registered ACI Convention attendees.

Technical and educational sessions provide attendees with the latest research, case studies, best practices, and the opportunity to earn Professional Development Hours (PDHs).

Additionally, the ACI Convention offers numerous networking events where you can expect to meet with many of the industry's top engineers, architects, contractors, educators, manufacturers, and material representatives from around the world.

Saturday, October 10, 2026

ACIF/NEU Summit

1:00 pm – 4:00 pm

Increasing the Pace of Change: Working Together for Better Concrete Across the Value Chain

Join us at this informative summit where researchers will report on barriers and solutions identified at a series of stakeholder listening sessions hosted by UC Davis to successfully implement better practices and emerging materials and technologies when building with concrete. Industry experts will also convey examples of how they are applying these key takeaways to real-world challenges.

Sunday, October 11, 2026

Student Mortar Workability Competition

8:00 am – 3:30 pm

Teams are challenged to create a mortar mixture with optimum flowability and stability. Students are to mix mortar at the ACI Convention competition site, and their mixture will be placed into a mold made in the shape of the letters ACI from the top of the letter “a.” Both flowability and mixture stability will be evaluated. In creating their mortar mixture, teams will have to pay careful attention to the specified material requirements, just as concrete producers must meet specification and project requirements on a daily basis.

For more information on the competition and how to register, please visit www.concrete.org/students/studentcompetitions.aspx.

✓International Lunch

11:30 am – 1:30 pm
